

# Garrett MS 3500

## - Rugged Walk-Through Metal Detector

The MS 3500 is designed to withstand all types of weather conditions and rough handling. It is designed to stand up to the rugged demands of jails, prisons and other facilities requiring maximum security. It also offers uniform coverage, excellent sensitivity, stability and noise rejection for more precise target evaluation.

### FEATURES

- Weatherproof overhead cap assembly houses all electronics to prevent moisture penetration.
- Constructed of heavy-duty 3/32" armor aluminum plates and protective corner edge protectors for maximum protection against physical abuse.
- Microprocessor technology incorporated in detection and control circuitry offers greater sensitivity to weapons screening.
- Automatic self-diagnostic function reports failures on the LCD.
- Heavy durability with quick assembly design.
- User-friendly programming for precise control of the detector's settings.
- Multiple coil design provides detector with three levels of ankle boost sensitivity.
- 20 standard programs for a variety of security applications.
- Moveable display keypad can be located inside the locked and weatherproof overhead cap assembly.
